OPENING SEQUENCE CONT.

BARE-BONES MAP

for both runs

ELEMENTS - collecting alts

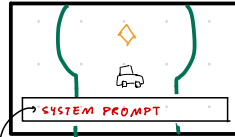

OLD CAR

* There seems to be a lot of debris covering the asset. click repeatedly to clear the dirt

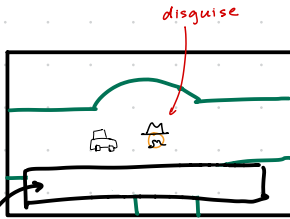

PLAYER CLICKS REPEATEDLY

DIRT SLOWLY "EATEN" AWAY

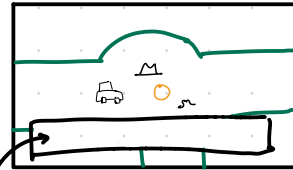

* The asset looks OK under all that rubble!
Press E to collect

add asset to "inventory"

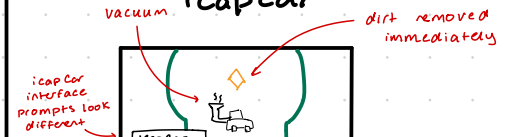

This asset doesn't look quite right; inspect it more closely

Player drags hat & mustache away

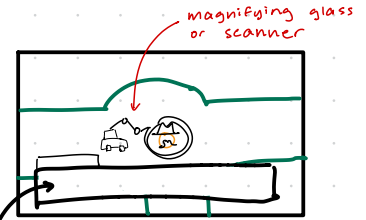

Actually, it looks harmless.
Press E to collect.

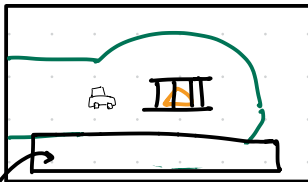

iCapCar

* iCapCar's built-in vacuum cleared all of that dirt away!
Press E to collect

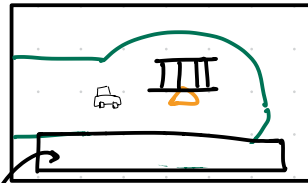

Automatic inspection complete, asset is harmless!
Press E to collect

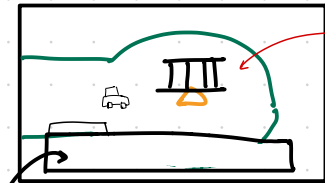

We need to open this asset cage. Luckily, there are some clues to the password:

3 "CLUES" EACH SIMPLE MATH PROBLEMS IN SYSTEM PROMPT (one at a time, randomize numbers)

Cage unlocked!
Press E to collect

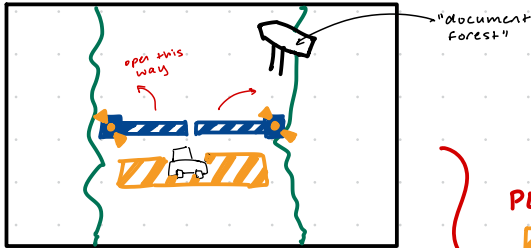

iCapCar's password dictionary automatically opened the cage!
Press E to collect

ELEMENTS - KYC CUSTOMS

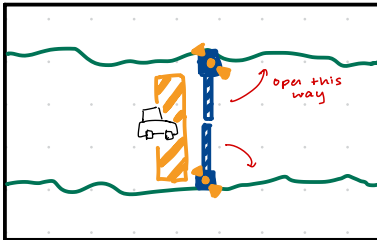

TWO SECURITY CHECKPOINTS

- 1) After collecting all assets, before document forest

* REQUIRE ALL 3 ASSETS TO BE COLLECTED BEFORE SECURITY CHECK (lower system prompt, see page 7)

- 2) After document forest, before assembly

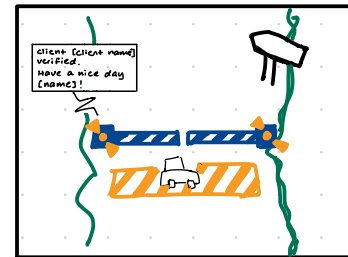

PLAYER HITS

OLD CAR

iCapCar

↓
gates open

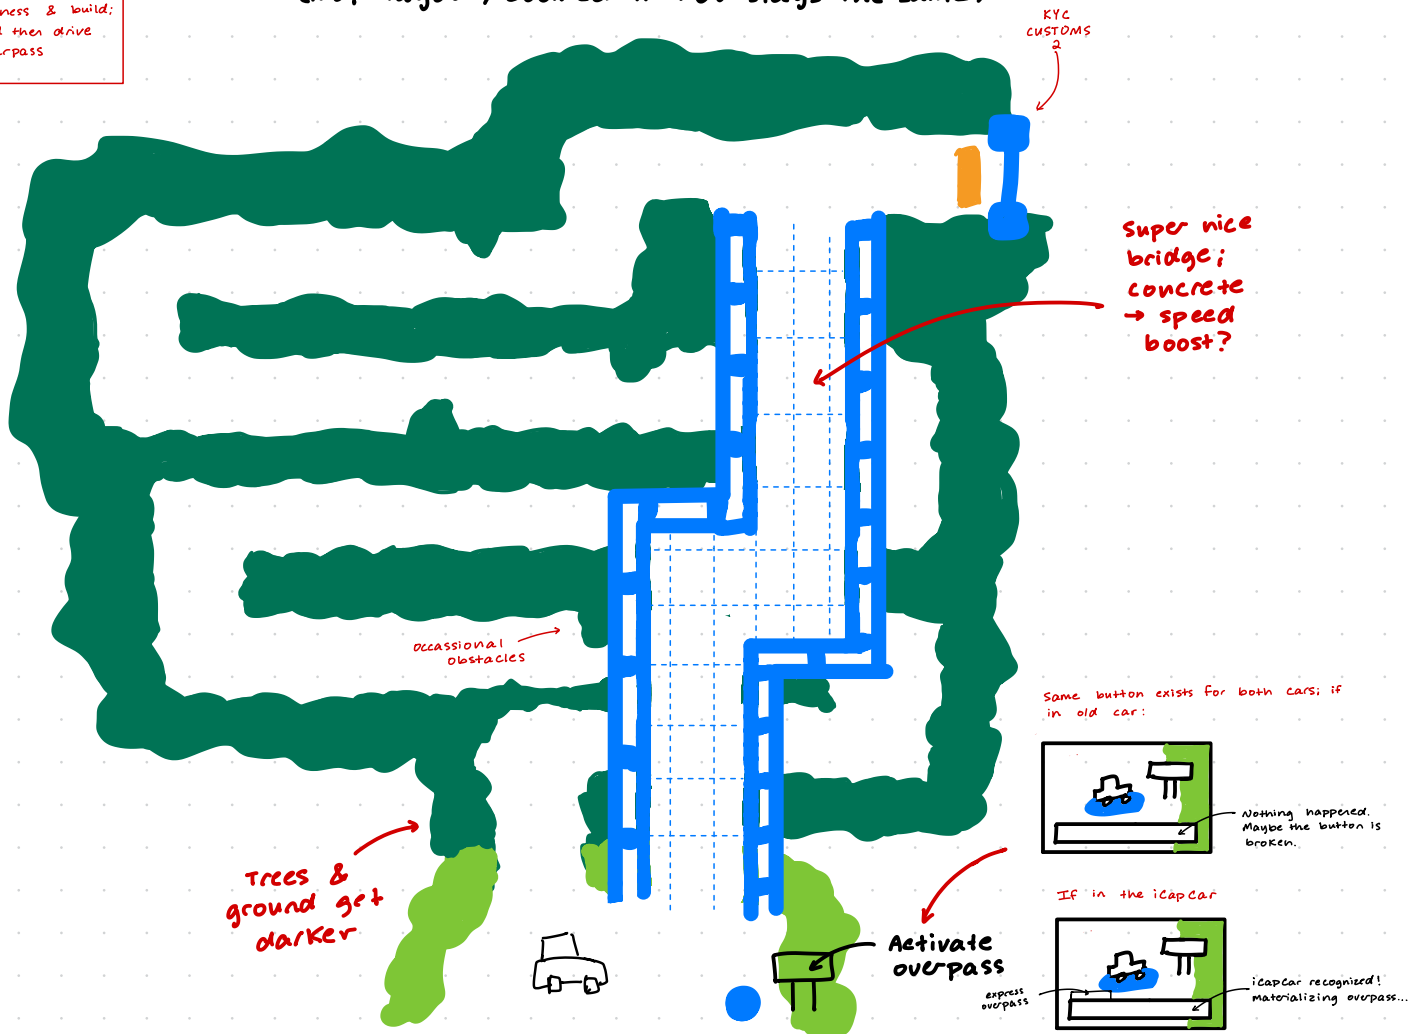

↓
gates open

NOTE:

For iCapCar overpass, still make the forest route available for game complete-ness & build; car should then drive under overpass

ELEMENTS - document forest

(map layout, zoomed-in FOV stays the same)

GRAPHICS & MECHANICS

When looking for graphics; illustrations
are only idea sketches

CAR

The car should only move
up, down, left, and right

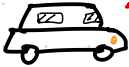

so all roads should have
corners (no rounded turns)

Sprite for driving up/down

Looking at the
back of the
car

Sprite for left / right

flipped left or right
depending on driving
direction;

BOUNDARIES

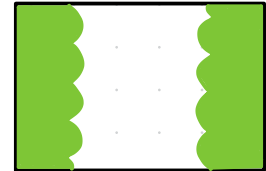

WAVY / TREES

STYLE

Depends on
graphics
available

UNIFORM / BUSHES

OR

START

CLEARINGS
FOR ACTION
AREAS

ASSET

SYSTEM PROMPTS & ACTIONS

FULL SCREEN

OR
complete
action

LOWER

OR
complete
action

Prompts should overlay current gameplay background; they should also pause driving gameplay until the action or Prompt has been completed (i.e. pressing enter through all dialogue, or picking up an asset by pressing E); prompts need to be triggered on contact / proximity with action item, the action-initiating radius should also deactivate upon task completion (avoiding infinite loop)

Find suitable animation for prompt screens appearance and disappearance

Time minimum per read-only prompt?
